

Title: SQL Injection
Severity: 4/10
Risk Level: MEDIUM

URL: <http://testphp.vulnweb.com:80/artists.php?artist=2>
Parameter: artist

Description:

- SQL Injection detected on parameter `artist`. The parameter influences backend database queries and
- Cross-Site Scripting detected on `artist`. Input is reflected or stored without proper sanitization.
- Medium severity may allow limited data exposure or client-side attacks.

Proof of Concept:

<http://testphp.vulnweb.com:80/artists.php?artist=2?artist=<payload>>

Impact:

Potential data leakage, account takeover, or client-side attack.

Remediation:

Validate input, sanitize output, and use parameterized queries.
