

Title: Suspicious Parameter

Severity: 0/10

Risk Level: LOW

URL: https://www.gartner.com/reviews/market/application-security-testing/vendor/invicti?utm_source=invicti

Parameter: utm_content

Description:

- No direct exploit detected, but parameter is user-controlled and should be monitored.
- Low severity suggests informational or low-impact behavior.

Proof of Concept:

https://www.gartner.com/reviews/market/application-security-testing/vendor/invicti?utm_source=invicti&utm_content=invicti

Impact:

Potential data leakage, account takeover, or client-side attack.

Remediation:

Validate input, sanitize output, and use parameterized queries.
