

Vulnerability Assessment Report

Target: http://testphp.vulnweb.com

Date: 2026-02-17

Overall Risk Rating: Critical

Technical Findings

1. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

2. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

3. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

4. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

5. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

6. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

7. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

8. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

9. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

10. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

11. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/categories.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

12. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/categories.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

13. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/categories.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

14. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/categories.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

15. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/categories.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

16. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/artists.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

17. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/artists.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

18. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/artists.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

19. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/artists.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

20. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/artists.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

21. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/disclaimer.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

22. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/disclaimer.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

23. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/disclaimer.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

24. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/disclaimer.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

25. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/disclaimer.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

26. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/cart.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

27. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/cart.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

28. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/cart.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

29. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/cart.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

30. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/cart.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

31. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/guestbook.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

32. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/guestbook.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

33. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/guestbook.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

34. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/guestbook.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

35. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/guestbook.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

36. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/AJAX/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

37. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/AJAX/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

38. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/AJAX/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

39. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/AJAX/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

40. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/AJAX/index.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

41. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/login.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

42. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/login.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

43. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/login.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

44. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/login.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

45. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/login.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

46. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/userinfo.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

47. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/userinfo.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

48. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/userinfo.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

49. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/userinfo.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

50. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/userinfo.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

51. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/privacy.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

52. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/privacy.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

53. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/privacy.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

54. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/privacy.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

55. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/privacy.php>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

56. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com/Mod_Rewrite_Shop/

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

57. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com/Mod_Rewrite_Shop/

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

58. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com/Mod_Rewrite_Shop/

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

59. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com/Mod_Rewrite_Shop/

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

60. Unnamed Vulnerability

Severity: Medium

Endpoint: http://testphp.vulnweb.com/Mod_Rewrite_Shop/

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

61. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/hpp/>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

62. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/hpp/>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

63. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/hpp/>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

64. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/hpp/>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.

65. Unnamed Vulnerability

Severity: Medium

Endpoint: <http://testphp.vulnweb.com/hpp/>

Description: N/A

Impact: Potential security impact.

Remediation: Apply security best practices.
